SKILLS

- **Languages:** Java, Python, C/C++, SQL.
- **Web Technologies:** HTML, CSS, JavaScript, MERN Stack..
- **Tools/Platforms:** Docker, Jenkins, Puppet, Ansible, Nagios, Terraform, Maven, Git.
- **Soft Skills:** Problem-Solving Skills, Team Player, Project Management, Adaptable.

INTERNSHIP

- **Academor Edtech E-Learning Private Limited** August 2024
 - Developed Android applications as part of minor and major projects.
 - Actively engaged in daily tasks, demonstrating strong problem-solving skills and adaptability.
 - Delivered quality reports and presentations with attention to detail.
 - Recognized for outstanding performance during the internship.Tech: AndroidStudio, Java.

PROJECTS

- **Orchestrix – Automated DevOps Pipeline for Expentix (MERN Application) :** November-2025
 - Built an end-to-end automated CI/CD pipeline using Jenkins, Docker, and GitHub webhooks to deploy a MERN-based expense tracking application on AWS.
 - Provisioned and managed cloud infrastructure using Terraform (IaC) and automated configuration & deployment using Puppet with secure secrets from AWS SSM Parameter Store.
 - Implemented Nagios monitoring for real-time health checks, service availability, uptime tracking, and alerting of frontend, backend, Docker, and EC2 resources.
 - Focused on security measures, including encrypted user credentials and vote integrity validation, to enhance system reliability.
 - Tech: Terraform, Jenkins, Docker, Puppet, Nagios, AWS EC2, AWS SSM, GitHub, MERN Stack (MongoDB, Express, React, Node.js).
- **ATM System using CI/CD Pipeline (Python Project) :** April-2025
 - Developed a Python-based ATM application supporting balance inquiry, deposit, withdrawal, fast cash, PIN management, and transaction logic with both interactive and non-interactive CLI modes.
 - Configured a complete CI/CD pipeline using Jenkins and GitHub, automating code checkout, Docker image build, automated testing, and deployment on every commit.
 - Containerized the application using Docker (python:3.10-slim) to ensure consistent execution across environments and enable automated pipeline testing.
 - Tech: Python, Jenkins, Docker, GitHub, CI/CD Automation.

CERTIFICATES

- Nptel (Cloud computing) November-2024
- Android App Development (Academor) September-2024
- Java Application Development (LPU) July-2024
- C Programming for beginners-Master the C language (Udemy) February-2023
- Fundamentals of Visualization with Tableau (Infosys) February-2023

EDUCATION

- **Lovely Professional University** Punjab, India
 - Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.24** August 2022
- **Sri Chaitanya Junior Collage** Bachupally, Hyderabad
 - Intermediate; **Percentage: 89%** June 2020 - June 2022
- **MNR School of Excellence** Hyderabad, Telangana
 - Matriculation; **Percentage: 59%** March 2020
